#FridayFeature! Grooms Custom Remodeling, LLC Gold Award-Winning Residential Interior Project: \$250,001 - \$500,000

The homeowner's kitchen, mudroom, and living room renovation was motivated by their desire for a more functional, yet beautiful, flow to the first floor. To create that flow, the living room floor and the windows and doors in the kitchen were raised, creating one level. By installing a larger kitchen island, more counter space and additional seating was added. There are all new appliances, including an automatic faucet. New maple cabinets were painted white and feature undercabinet lighting with the use of LED strip lights. In the mudroom, storage was increased in the closet and underneath the bench.
